

## Please review prior to our sales appointment

OFFSHORE POOLS, in an effort to assist our potential customers, has created this website to help you navigate your way through the sales process. Please take the time to review all aspects of our site. This site will, hopefully, make the sales presentation an easier and less time consuming process for our clients in some of the areas they may want to consider prior to their appointment.

1. **Shape:** Whether it is simple elegance or a free form pool you are interested in, take the time to review Design/Shapes and note some you may be interested in.
2. **Size:** Pools can be made in any size. Things to consider are either a diving or non diving pool, lot size, activity, use, and budget.

Other areas to review so you have a basic understanding of products available that may fit your particular needs are:

- Accessories: i.e., filters, purification, heaters, etc...
- Steps/Benches/Spas
- Water features
- Masonry/Coping
- Pool Scaping
